Year 9 Geography

LEARNING JOURNEY

Links to careers/SMSC/Personal Development
Geography skills and knowledge you gain can be used in almost every job sector. Geography supports spiritual development by promoting a sense of wonder and fascination with the physical and human world. The study of geography stimulates an interest in and a sense of wonder about places. It helps young people make sense of a complex and dynamically changing world.

On to year 10!

End of Year 9

Summer

Glaciation

- What are the different glacial landforms?
- How does the history of glaciation connect to climate change?
- What is a glacier?
- We'll study significant ice ages in Earth's history.

Climate Change and the Earth's Future

- Analyse the impacts of climate change
- How can we mitigate climate change?
- How do humans cause climate change?
- How is climate change and global warming different?

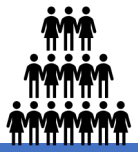

Spring

How does life vary in contrasting cities? UK V Asia

- Life in London V Mumbai
- Challenges such as the development of slum areas within cities.
- What is urban sprawl?

Autumn

How are populations changing?

- Understanding the concept of migration
- What causes populations to grow?
- What population means and why it's important.

Start of Year 9

Summary: This learning journey provides a comprehensive exploration of population and urbanisation, climate change and its consequences, and glaciation and its relevance to Earth's history and future. This will give you a better understanding of the challenges we face and also of the evidence that combines to prove this
